## Chapter 2

# Important Norms of Astrology

Astrology is the most popular & common term used throughout the world. Vedic Astrology is the most accurate & reliable science. Unfortunately during the last few hundred years, the principles of ancient Vedic Astrology are ignored & disappearing gradually. Those who have sufficient knowledge of Vedic Astrology are not approachable by a common man and they also do not like to part with the most valuable knowledge. Astrology is not superstition. It has developed along with the civilisation.

Astrology has developed along with Astronomy. Astronomy is accepted as a science, but scientists are not willing to accept Astrology as a science. It is essential to explain the importance of Astrology in this book, because most of the principles applied in Sarvato Bhadra Chakra are based on Astrological norms. Most of the essential constituents of Astrology (which are applied in SBC), are also the constituents of SBC.

Astrological principles are applied for future prediction, through the methodologies documented in the following standard documents.

### Standard Documents :

- Jatak documents
- Horary documents
- Mahurata documents
- Nast Jatak documents (unknown birth time)

- Varshphal documents (Annual horoscopes)
- Panchang for determining the current position of different constituents of Astrology.

### **Astrological Documents :**

Astrology has also developed specialised documents on the following subjects:

- Females Astrology.
- Jatak (individuals) problem (Hora).
- Medical Astrology.
- Marriage Astrology.
- Longevity (Kalchakra) Astrology.
- Business Astrology – Prices & Market condition.
- Mundane Astrology.
- Remedial Measures in Astrology.
- Tantra & Mantras.

In addition large number of Sages have prescribed different norms for tackling different problems of the Jatak (Native). But how to verify different predictions by different Astrologers. Consequently our sages developed methodologies to verify the correctness in different predictions. Sarvato Bhadra Chakra is one of them.

In case, SBC is also applied to verify the correctness of Astrological predictions, the native can be guided about the truth. This will repose confidence in the individual & percentage of correct predictions may be improved.

To ensure correct application of SBC, some elementary knowledge of Astrology is essential. Some of the important norms of Astrology have been recorded in relevant chapters. However some more norms are explained here to understand Astrological terminology & apply them correctly.

Note: Abhijit star extends from 9°-60'-40"-0 " to 9°-10'-53'-20"

### **New Moon :**

## Chapter 3

# Sarvato Bhadra Chakra & its Constituents

Prepare a Sarvato Bhadra Chakra by drawing 10 vertical & 10 horizontal lines. Each line intersecting each other, making 81 vargas. These Vargas must be equal in size & must be square. This practice is recommended by our Sages. Some other sages have recommended SBC consisting of 64 or 144 vargas. These varga systems are not popular. Now record the following constituents in the SBC.

**Stars :** Place all the 28 Stars (including Abhijit) in the 28 top vargas of SBC, excluding 4 vargas in 4 corners, which are allotted to 4 vowels, A, AA, E, EE. Now indicate Stars in the SBC as under :

**East direction :** Stars from Krittika to Aslesha (varga Nos. 2-8).

**South direction :** Stars from Magha to Visakha (varga Nos. 10-16).

**West direction :** Stars from Anuradha to Sravana (varga Nos. 18-24).

**North direction :** Stars from Dhanistha to Bharani (varga Nos. 26-32).

Abhijit Star is specially applied in SBC. It Starts from Uttara-Sadha. (Last pada) & end in Sravana (2nd pada). Longitude  $276^{\circ}-40'$  to  $280^{\circ}-53'-20''$ . As such the duration of the 3 Stars is less than other 25 Stars, which are of

13°-20' each. In SBC, Krittika has been assigned first position because in Swarodaya sastra & Satpati Chakra, Kritika has been posited at S. No. 1.

**Signs :** The next important constituent of SBC is Sign. In Astrology there are 12 signs. These signs should be placed in Varga assigned to them as under :

Signs	Varga No	Direction
Taurus (Vrisa)	58	East
Gemini (Mithuna)	59	East
Cancer (Kark)	60	East
Leo (Simha)	62	South
Virgo (Kanya)	63	South

Sagittarius (Dhanus)	67	West
Capricorn (Makara)	68	West
Aquarius (Kumbha)	70	North
Pisces (Mina)	71	North
Aries (Mesa)	72	North

- Each sign has 9 padas & 4 padas in each Star. Keep varga nos 61, 65, 69, 57 for consonants & vowels.

### Lunar Tithies

The next important constituent is Lunar Tithies: These should be placed as under:

- Monday & Wednesday in Varga No. 76 in South.
- Thursday in Varga No. 78 in West.
- Friday in Varga No. 80 in North.

### How to determine Vowel etc from popular name :

Chakra for determining vowels and consonants from popular latest name, when real horoscope is not available.

Vowels (Swar)	A	EE	UO	AE	O	
Consonants	Ka	Kha	Ga	Gha	Cha	Shukla Pakha
Tithi	1	2	3	4	5	
Consonants	Chha	Ja	Jha	Ta	Tha	Krishan Paksha
Tithi	1	2	3	4	5	
Consonants	Da	Dha	Ta	Tha	Da	Shukla Paksha
Tithi	6	7	8	9	10	
Consonants	Dha	Na	Pa	Pha	Va	Krishan Paksha
Tithi	6	7	8	9	10	
Consonants	Bha	Ma	Ya	Ra	La	Shukla Paksha
Tithi	11	12	13	14	15	
Consonants	Ba	Sha	She	Sa	Ha	Krishan Paksha
Tithi	11	12	13	14	15	
Tithi	Nanda 1,11	Bhadra 2,7,12	Jaya 3,8,13	Rikta 4,9,14	Purna 5,10,15	

Notes : If Consonant is Ja, the Swar (Vowel) will be EE & Lunar Tithi will be 2.

From the Consonant also determine the Star of that word, from Star determine sign & pada. This Chakra should be applied when the original horoscope of the native is not available.

- When Consonant is available (from the popular name) decide the Vowel & Tithi from the above Chakra.
- When two words are joined in the name, take the

Vowel which belongs to first word.

- When the first word is Swar (Vowel) itself, consider it as Swar (Vowel) & Consonant also.
- When an individual has many names, consider the latest name only.

#### Extra details :

A detailed SBC should contain the following information, which is essential for predictions, based on Stars & pada of Stars.

- Stars-28 Stars including Abhijit
- Pada of Stars-four padas in each Star.
- Consonants & Vowels of each pada of Star.
- Sign of the Star.
- Place all 9 planets of native's birth chart in appropriate pada or star. The details are given in specimens given in chapter 18.

#### Vargas in SBC :

As explained above, the SBC contains 81 vargas. These vargas are distributed as under.

- Stars	:	28 Vargas
- Signs	:	12 Vargas
- Tithies/Weekdays	:	5 Vargas
- Vowels	:	16 Vargas
- Consonants	:	20 Vargas
Total	:	<u>81 Vargas</u>

**Note:** See Chapter 18 for S.B.C.

#### Sapta Nadi

Details of seven Nadies along with their Stars are given in the following Chakra. Find out your birth Star Nadi and locate lord of your Nadi from the following Chakra and specially indicate that Nadi & Lord over it

birth Star. When ever any planet or planets transit this Nadi Star/lord, it gives result as under :

### Sapt Nadi Chakra

Nadi	Prachand	Pawan	Dehan	Sobhya	Neer	Jal	Amrit

**1. Prachand Nadi Stars:** Most dangerous. Indicate Travelling, differences, Malefic planets indicate greatest harm. Benefic Planets indicate permanent achievement of high standard and unexpected gains.

**2. Pawan Nadi Stars:** Indicate lot of travelling. Minor benefic and malefic results but very fast.

**3. Dehan Nadi Stars:** Indicate lot of mental tension in that year, avoid working. He will be quarrelsome, hostile, angry, jealous and spoil his life to some extent.

**4. Sobhaya Nadi Stars:** Indicate happy results due to Vedha and transit of benefic planets. Ensure benefic results to native & all his family members. Ensure many type of happy events, never experienced in life.

**5. Neer Nadi Stars:** Indicate uncertainty. Native has to work hard to achieve desired results, otherwise failures. Native gets many opportunies in this period.

**6. Jal Nadi Stars:** Indicate some benefic events, which are possible during that year only. Ensure also some benefic and malefic results which are everlasting.

**7. Amrit Nadi Stars:** Indicate everlasting benefic results, which the native enjoys through out his life.

- Notes :** If Nadi Star lord, alone transit the Star of the Nadi, result will be as per name of Nadi.
- : Results are more specific when Moon joins the Nadi along with benefic/malefic planet.
  - : Full Moon (6th of Shukla Paksha to 5th of Krishan Paksha) along with lord of the Nadi transit/aspect, most benefic results are assured.

### SAHAM :

**Punya Saham :** Special Sensitive point indicating fortunate longitude & its lord as under

Day Birth : Moon-Sun + Ascendant = Longitude.

Night Birth : Sun-Moon+Ascendant = Longitude.

If the Lord of the above Saham occupies 1, 4, 7, 10, 5, 9 house it is most beneficial & fortunate. In other cases, the native does not get the desired results. Whenever any benefic planet transit the Saham's longitude & its lord, fortunate period is indicated.

**Vimsottri Mahadasa :** Find out the Lords of Dasa and Antardasa. If these Lords occupy 2, 4, 6, 8, 9 Star from birth Star, benefic results are assured during Dasa as & when the benefic planet transit these lords position in SBC.

**Strength of Planets in Natal & Navamsa Charts:** Determine the strength as per standard practice & indicate these planets in SBC.

### Navamsa :

A Navamsa Chart consists of 108 Vargas of 3°-20' each, dividing a sign into 9 equal parts of 3°-20' each. In this circle each Star has four padas & each pada indicates a Navamsa. The Starpada position of a planet indicates accurate position.

Rule: Sign : 1, 4, 7, 10 : The Navamsa division Starts from the sign itself.

Sign: 2, 5, 8, 11 : The Navamsa division Starts from the 9th sign.

Sign: 3, 6, 9, 12: The Navamsa division Starts from the 5th sign.

## Chapter 4

# All About Stars

Zodiac has been divided into 12 signs & 27 Stars. Each sign consists of 2¼ Stars & each Star is equal to 13° 20'. Stars play an important role in Astrology. Birth Star is considered most important in Astrology as well as SBC. The Birth Star is considered to be a very sensitive point in the natal chart of a person. The position of Star Benefic/Malefic from Birth Star is as under :

<b>Benefic/malefic Stars :</b>	<b>1st series</b>	<b>2nd series</b>	<b>3rd series</b>
Birth Star-Danger	1	10	19
Sampath-Wealth & prosperity	2	11	20
Vipath-Loss & accident	3	12	21
Kshemya-Prosperity	4	13	22
Pratwara-Loss in business	5	14	23
Sadhaka-Success	6	15	24
Naidhana-Death	7	16	25
Maitra-Friendship	8	17	26
Param-Maitra-Intimate friend	9	18	27

- From Birth Stars, the Stars indicated at S. Nos. 2, 4, 8, 9, 11, 13, 15, 17, 18, 20, 22, 24, 26, 27 are considered benefic.
- From Birth Star, the Stars indicated at S. No. 1, 3, 7, 10, 12, 14, 16, 19, 21, 23, 25, are considered malefic.

- Whenever a benefic planet occupy benefic Star as indicated above, benefic results are expected or when the benefic planet has a benefic Vedha aspect.
- Whenever a malefic planet occupy or has Vedha aspect on the malefic Stars as indicated above, malefic results must take place.
- Whenever two malefic planets occupy birth Star or have malefic Vedha aspect, the native may fall sick.
- Similarly affliction of birth Star and Stars at S. Nos. 10 & 19 simultaneously, indicate death.

### Tendency of Stars :

1. **Birth Star** : It gives results according to its nature, but it's results are everlasting.

2. **Sampath Star** : Planet on this Star gives maximum benefic results, have great impact in life of native. Benefic planets give more benefic results.

3. **Vipath Star** : It creates maximum obstructions and malefic results according to it's nature. But benefic results are insignificant. e.g. Jupiter on this Star, gives malefic results to children & family.

4. **Khemya Star** : It gives benefic results, which are enjoyed by whole-family.

5. **Pratwara Star** : It does not gives results directly. It gives disappointments. It effects others, who associates with the native.

6. **Sadhaka Star** : Planets owning or occupying this Star gets 100% benefic results, but after some efforts. Some of the native expect some quick benefic results, but these are delayed.

7. **NaidhanaStar** : Planets occupying this Star indicate hopeful nature of native, but it seldom happens.

8. **Maitra Star** : Planets occupying this Star indicate

all type of achievements through frinds. Specially while travelling, through known or unknown persons.

9. Param Maitra Star : Planets occupying this Star give results through a person or an organisation during the course of travelling. If a malefic planet is on this point, this destroys the achivements of native.

### Notes:

In SBC 28 Stars are applied. In addition to 27 Stars, Abhijit Star is also considered. But this Star is not considered while fixing the benefic Stars from birth Star, eg. 2, 4, 6, 8, 9 & malefic Stars from birth Star, 3, 5, 7. It is also not considered for fixing the years of life e.g. 1st year indicates first year of life & 27th Star indicates 27th year of life. Again the first year indicates the 28th year of life.

Similarly Dasa & Antardasa of planets occupying 2, 4, 6, 8, 9 Stars from birth Star of native, must be examined. Dasa of such planets is always benefic.

## Chapter 5

# All About Planets

In Sarvato Bhadra Chakra, planets play the most important role. Their impact depends on their benefic & malefic nature, their benefic & malefic strength, their characteristics and their significations. So before we decide their impact, we should know all about them.

### Nature of Planets :

- Sun	Malefic, Fiery, Masculine.
- Moon	Benefic, Watery, Feminine.
- Mars	Malefic, Fiery, Masculine
- Mercury	Benefic, Earthy, Neutral
- Jupiter	Benefic, Airy, Masculine

- Rahu	Malefic, Airy, Feminine
- Ketu	Malefic, Fiery, Neutral
- Neptune	Malefic, Watery, Neutral
- Uranus	Malefic, Airy, Masculine
- Pluto	Malefic, Watery, Feminine

**Notes :** Moon is Benefic from 6th Lunar date of bright half (Shukla Paksha) to 5th Lunar date of dark half.

Mercury is Benefic when it is alone without any relation with any malefic planet.

**Rising and Combustion of Planets (Uday & Ast):**

**Rising of Planets (Uday) :**

- Sun : Always rising (Uday). It is never combust or retrograde.
- Moon : Always rising (Uday). It is never combust or retrograde.
- Rahu : Never rises. It is always retrograde.
- Ketu : Never rises. It is always retrograde.
- Mars : It is considered as rising when not combust.
- Mer : It is considered as rising when not combust.
- Jup : It is considered as rising when not combust.
- Ven : It is considered as rising when not combust.
- Sat : It is considered as rising when not combust.

**Combustion of Planets (Ast) :**

- Longitude for Combustion	Period of Combustion
- Moon within 12° to Sun	-
- Mars within 17° to Sun	12 days
- Mer within 13° to Sun	36 days
- Mer (R) within 12° to Sun	16 days
- Jupiter within 11° to Sun	30 days
- Venus within 9° to Sun	15 days
- Venus(R) within 8° to Sun	9 days
- Saturn within 15° to Sun	36 days
- Rahu within 15° to Sun	
- Ketu within 15° to Sun	

### Retrogradation of Planets :

Usually when Mars, Jup & Saturn are in 5, 6, 7, or 8th house from Sun, these planets become retrograde. When the planet is  $180^\circ$  from Sun, its gets maximum power. During a year these planets are retrograde as under :

Planets	Period of Retrogradation
Saturn (R)	140 days to 142 days
Jupiter (R)	120 days to 122 days
Mars (R)	80 days to 82 days
Venus (R)	42 days to 45 days
Mercury(R)	24 days
Rahu (R)	365 days
Ketu (R)	365 days
Uranus (R)	150 days
Neptune (R)	159 days
Pluto(R)	160 days

Retrograde planet may remain retrograde in a Star from start to the end of a Star. Retrogradation is 100% when the planet is in the centre. Malefic planets when retrograde become more malefic & cruel, whereas benefic planets are considered more benefic in deciding their impact on native according SBC. For strength of the retrograde planets, see subsequent chapters.

**Retrograde Motion :** When a planet in direct motion, suddenly stops and slow down its speed and proceed back ward, it's motion is called retrograde motion.

Some peculiarities about speed of planets are mentioned below :

- Sun : Always normal speed. Never retrograde or in high speed.

- Moon : As above
- Rahu : Always retrograde in motion.
- Ketu : Always retrograde in motion.
- Mars : May be direct (Normal or high speed) or retrograde.
- Jup : May be direct (Normal or high speed) or retrograde.
- Sat : May be direct (Normal or high speed) or retrograde.
- Ven : May be direct (Normal or high speed) or retrograde.
- Mer : May be direct (Normal or high speed) or retrograde.

#### Standard Speed of Planets :

Planet	Normal	Fast	Very fast
Jupiter	5'-00"	12'-22"	14'-4"
Venus	59'-8"	73'-43"	75'-42"
Saturn	2'-0"	5'-27"	7'-45"
Mars	31'-26"	39'-1"	46'-11"
Mercury	59'-8"	104'-46"	113'-32"

#### Vedha power of a planet :

- Direct motion-Normal speed : Front Vedha.
- Direct motion-High speed : Left Vedha.
- Retrograde motion : Right Vedha.

It may be indicated here that the speed of above planets is never fixed. It goes on changing from time to time & year to year. As such it should be checked from the standard Indian Ephemeris. When any reliable Indian Ephemeris is not available, decide the speed of a planet as under :

### How to determine speed : a simple method :

Sun's position from a planet	Assumed speed of a planet
Sun in 1st house	Retrogradation of Mer/Ven is possible.
Sun in 2nd house.	Fast motion.
Sun in 3rd house.	Normal motion.
Sun in 4th house.	Normal being slow
Sun in 5th/6th house.	Retrograde motion
Sun in 7th/8th house.	Retrograde motion.
Sun in 9th/10th house.	Fast motion.
Sun in 11th/12th house.	Fast motion.

### Norms for Venus & Mercury:

- Venus & Mercury in 2nd house from Sun : Retrograde.
- Venus & Mercury in 12th house from Sun : Fast.
- Venus & Mercury in 3 & 11th house from Sun : Normal.

### Notes :

- Speed of Sun & Moon is fixed.
- Planets having more speed than Sun/Moon may be considered as fast.
- Planets having less speed than Sun/Moon may be considered as slow.

### Exaltation of Planets :

All Planets are constantly moving around the Sun and also 12 Signs. During their movement they move in Signs which they do not rule. They are sometimes powerful or weak therein, depending on the sign they transit. They are accordingly called exalted, debilitated, retrograde or

detriment. Planets are strong or weak depending on the sign they occupy and are called exalted, if they occupy Signs as under during their movement.

Planets	Exaltation Signs	Longitude	Star & Lord
Sun	Aries in 10°	(10°)	Asvini (Ketu)
Moon	Taurus in 3°	(33°)	Krittika (Sun)
Mars	Capricorn in 28°	(298°)	Dhanistha (Mars)
Mercury	Virgo in 15°	(165°)	Hasta (Moon)
Jupiter	Cancer in 5°	(95°)	Pusya (Sat)
Venus	Pisces in 27°	(357°)	Revati (Mer)
Saturn	Libra in 20°	(200°)	Svati (Rahu)
Rahu	Gemini in 20°	(80°)	Arda (Rahu)
Ketu	Sagittarius in 20°	(260°)	P. Sadha (Venus)
Uranus	Scorpio		
Neptune	Leo		
Pluto	Aries		

Notes: Mercury's exaltation point is 15° in Virgo. Thereafter its Mooltrikona extends upto 25°. The remaining 5° of Virgo is his own house.

Some Sages consider entire sign as an exaltation sign & the above mentioned longitude indicates most exaltation point of these planets.

### Navamsa Varga :

In Sarvato Bhadra Chakra special importance is given to the Navamsa position of a planet. It is most useful to understand the micro-result of a planet. To find out the Navamsa the zodiacal circle (Bhavachakra) is divided into 108 equal parts of 3°-20' each. It means that each sign is divided into 9 Navamsa parts or it is equal to one pada of 3°-20' each of a Star. The limit of each Navamsa in a sign is as under :

1 Navamsa from 0° - 0' to 3° - 20'

2nd Navamsa from 3° - 20' to 6° - 40'

3rd Navamsa from 6° - 40' to 10° - 00'

4th Navamsa from 10° - 00' to 13° - 20'

5th Navamsa from 13° - 20' to 16° - 40'

6th Navamsa from 16° - 40' to 20° - 00'

7th Navamsa from 20° - 00' to 23° - 20'

8th Navamsa from 23° - 20' to 26° - 40'

9th Navamsa from 26° - 40' to 30° - 00'

### Navamsa Chakra

Amsa	Aries, Leo Sagittarius	Taurus, Virgo Capricorn	Gemini, Libra, Aquarius	Cancer, Scorpio Pisces
3°-20'	1	10	7	4
6°-40'	2	11	8	5
10°-00'	3	12	9	6
13°-20'	4	1	10	7
16°-40'	5	2	11	8

23°-20'	7	4	1	10
26°-40'	8	5	2	11
30°-00'	9	6	3	12

### Transit of planets :

All planets are transiting (moving) in the Zodiac Circle of 360°. Planets are moving from first pada, Star (Nakshatra) and sign (Rasi) to next pada etc. Their motions in a pada, Star & Sign are as under:

Planet	Period in Pada (Approximate)	Period in Star (Approximate)	Period in Sign (Approximate)
Sun	3°-20' (3 days 8hrs)	13°-20' (14 days)	30° (30 days)
Ketu	3°-20' (60 d)	13°-20' (240 day)	30° (18 months)
Rahu	3°-20' (60 day)	13°-20' (240 day)	30° (18 months)
Moon	3°-20' (6 Hrs)	13°-20' (1 day)	30° (2¼ days)
Mars	3°-20' (5 days)	13°-20' (20 days)	30° (45 days)
Mercury	3°-20' (3d. 8h)	13°-20' (13d 8h)	30° (30 days)
Jupiter	3°-20' (40d)	13°-20' (160 d)	30° (12 days)
Venus	3°-20' (3d-8H)	13°-20' (13d-8h)	30° (30 months)
Saturn	3°-20' (60 d)	13°-20' (240 day)	30° (18 months)

Notes : Each Sign = 30°-00'  
 Each Star = 13°-20'  
 Each Pada = 3°-20'

**Impact of Planets in Transit:**

In Sarvato Bhadra Chakra, the whole methodology of prediction is based on movement of planets in Signs, Stars & padas of Stars & thier correct Vedha. Impact of a planet can only be ascertained from the correct longitude of a planet & its placement in appropriate pada of a Star. Benefic results depend on transit of benefic planets on benefic sign & Star, specially 2, 4, 6, 8, 9 Stars from birth Star. Benefic planet occupying benefic sign, benefic Star indicates benefic Vedha aspect.

**Conjunction of planets in a Star during transit:**

When 2 or 3 planets conjunct, during their transit, on a particular Star, the results will be as under:

- Conjunction of Benefic planets = Benefic results.
- Conjunction of malefic planets = Malefic results.
- Conjunction of malefic & Benefic planets : Results depends on victorious planet.

### Notes:

- Planet in the North is considered victorious, and planet in South is considered defeated except Venus.
- Planet with Sun is considered as Combust.
- Planet with Moon is considered in Samagam.
- Planet with Mars is considered in war-provided their longitudes are in the same Star.
- Planet in Samagam or war, whether in North or South is victorious if in North Kranti.
- Planets having same nature, occupying same pada on a Star, classification of victorious planet is not necessary. However the will of the planet, having more longitude, will prevail.
- Rahu or Ketu occupying North Star will be victorious.
- If both the planets are in South kranti, the planet in lesser longitude will be victorious.
- If both the planets are equally strong, both the planets will give appropriate results according to their significations.
- If both the planets are equally strong-one is friend & other enemy - treat their impact as neutral.
- Kranti means two planets having the same longitude either in North or South.
- If both the planets are in North Star, the planet having more longitude is victorious.

### Vedha aspect of Planets:

In Sarvato Bhadra Chakra, speed of a planet is of vital importance because, all types of Vedha aspects depends on speed. Usually the planets, have following types of speed:

Motion - speed	Vedha Aspect
– Direct motion - Normal speed.	Front.
– Direct motion - High speed	Left.
– Retrograde motion-Backward motion	Right

**Direct motion:** When a planet moves direct without stopping, in anti clock wise direction, it is know as direct motion, e.g. planet moving from Aries to Taurus. It's Vedha aspect is always front Vedha.

### Types of Vedha aspect:

In Sarvato Bhadra Chakra, aspect of planets, is considered most important, because Vedha depends on aspect, which may be direct, right or left, depending on the speed of a planet. This aspect is different than the aspect in Vedic Astrology. Their aspect is front when in normal speed, left when in high speed & right Vedha when retrograde.

### Grading of Aspect:

- Aspect by a Benefic planet:
- Sign occupied by a planet :

Own	Friend	Neutral	Enemy	Aspect
20.00	15.00	10.00	5.00	100%
15.00	11.25	7.50	3.75	75%
10.00	7.50	5.00	2.50	50%
5.00	3.75	2.50	1.25	25%

- Aspect by a Malefic planet:
- Sign occupied by a planet:

Own	Friend	Neutral	Enemy	Aspect
5.00	10.00	15.00	20.00	100%
3.75	7.50	11.25	15.00	75%
2.50	5.00	7.50	10.00	50%
1.25	2.50	3.75	5.00	25%

**Notes :**

The above units indicate the presumed numerical strength-Benefic or malefic.

**Special Vedha aspect:**

As already explained, the planets have the following three types of Vedha aspect only:

**Motion (speed)****Vedha aspect**

Direct Motion of a Planet in Normal speed: Front

Direct Motion of a Planet in High speed: Left

Retrograde Motion of a planet: Right

Sun, Moon, Rahu & Ketu have fixed speed : Front, Right & Left

In addition to above the following aspects may also be considered:

**Special Vedha Aspect:**

Planet	Star aspected from Star occupied by the planet	Aspect in S.P. during day & fore noon	Aspect in K.P. during night & afternoon
Sun	15,5	Behind	Front
Moon	15	Front	Behind
Mars	15,8,10	Behind	Front
Mercury	15,9,12	Front	Behind
Jupiter	15,10,19	Front	Behind
Venus	15,9,12	Front	Behind
Saturn	15,3,5,21	Behind	Front
Rahu	15,9,	Behind	Front

Note: S.P. Stands for Sukla Paksha and K.P. for Krishan Paksha

**Aspect in Vedic Astrology:**

Planet	Full aspect	3/4th aspect	2/4aspect	1/4aspect
Sun, Moon	7th	4th & 8th	5th & 9th	3rd & 10th
Mer, Ven	do	do	do	do
Rahu & Ketu	7,5,9	do	—	do
Mars	7,4,8,	—	5th & 9th	3rd & 10th
Jupiter	7,5,9	4th & 8th	—	3rd & 10th
Saturn	7,3,10	4th & 8th	5th & 9th	—

**Aspect: Benefic or Malefic:**

- Benefic planet aspects a Malefic planet: 25% Benefic
- Malefic planet aspects a Benefic planet: 25% Benefic
- Malefic planet aspects a Malefic planet: 100% Malefic
- Benefic planet aspects a Benefic planet: 100% Benefic
- 5th & 9th aspect : 100% Benefic.
- 4th & 8th aspect (except Mars) : 100% Malefic.
- Saturn having 4th aspect of Mars : Benefic.
- Mars having 4th aspect of Saturn : Malefic.
- 3rd & 11th aspect of benefic planet. : Benefic.

**Significations of Planets:**

- Benefic Planets: Moon, Mercury, Jupiter and Venus. They always give benefic results provided they are having no relation with malefic planets.

10'	40"	30"	20"	10"
15'	60"	45"	30"	15"
20'	80"	60"	40"	20"
30'	120"	90"	60"	30"

50'	200"	150"	100"	50"
60'	240"	180"	120"	60"

P.S. Treat 60" = 1'

60' = 1°

Examples: Sun's Longitude 4°-10°-10'  
Sun in own sign gets 20 points + 40'+40"

### Strength of Rising or Combust Planets:

**Rising planets (UDAY) : Numerical strength**

- Sun: Always uday : 60
- Moon: Always uday (from 2nd of bright half to Purnima). It reduces proportionally when it is in dark half. (Krishan Paksha). : 60

Example:

Moon is in 7th Lunar tithi of bright half. Numerical strength will be:  $60 \div 14 \times 7 = 30$

- Rahu & Ketu: Never rising : 00
- Other planets: When they are released from combustion & enter their own sign : 60
- Other planets: When combust : 00

**Combustion of planets:** Their numerical strength is always nil. However they are combust in the following circumstances:

Moon within	12° of Sun
Mars within	17° of Sun
Mercury within	13° of Sun
Jupiter within	11° of Sun
Venus within	9° of Sun
Saturn within	15° of Sun
Rahu within	15° of Sun
Ketu within	15° of Sun

### Strength of Retrograde planets:

In Sarvato Bhadra Chakra, a retrograde planet is assigned special significance because of its special Vedha power & numerical strength. Details of retrograde planets are given in relevant chapter. Here the strength of such a planet is explained to determine its overall impact on human beings:

- Calculate the total number of days when a planet is Retrograde e.g.: 120 days for Jupiter (A).
- Calculate the total number of days from the date of Start of Retrograde motion to the day of event e.g. Say 100 days (B).
- Find out the midpoint of total days at (A) 60 (C) :  $120 \div 2 = 60$  (C).
- Find out the difference of total days (A) & total days upto event (B) =  $120 - 100 = 20$  (D)
- Presume total numerical strength = 60 (E)

$$\text{Rule for determining the strength} = \frac{60 (E)}{60 (C)} \times \frac{20 (D)}{1}$$

Actual numerical strength = 20

### Strength of Exalted planets:

In Sarvato Bhadra Chakra, an exalted planet is as-

signed special benefic powers & malefic powers. The details of determining the exaltation of a planet are given in relevant Chapter. Here only the formula to determine the numerical strength is given. Our sages have suggested different methods to determine the strength. Some of them are recorded below:

Rule 1: Longitude of the planet =  $9/29^{\circ}/36'$   
 Longitude of its debilitation =  $6/10^{\circ}/00'$   
 Difference =  $3/19^{\circ}/36'$   
 Divide by 3 =  $\{3/19^{\circ}/36'\} \div 3$   
 =  $36^{\circ}/32'$

Rule 2 Longitude of the planet =  $9/29^{\circ}/36'$   
 Longitude of its debilitation =  $6/10^{\circ}/00'$   
 Difference =  $3/19^{\circ}/36'$   
 Multiply by 7 & divide by 6  
 $[3/19^{\circ}/36'] \times 7 \div 6$   
 =  $127^{\circ} - 52'$

### Strength of planet in Navamsa Sign:

As already explained when the Zodiacal circle (Bhavchakra) is divided into 108 equal vargas of  $3^{\circ}-20'$  each, dividing each sign into nine equal parts, it indicates each Navamsa of  $3^{\circ}-20'$  each. Each Navamsa covers only one pada of  $3^{\circ}-20'$  of a sign covering nine Navamsas. The pada of a Star indicates the correct position of the planet in the circle & Navamsa.

Maximum longitude of a Navamsa is 200 kalas (minutes). The following is an abstract table indicating the numerical strength of a planet in Navamsa chart:

Longitude in a Star's pada in kala (Minutes)	Own Sign	Friends Sign	Neutral Sign	Enemy Sign
100'	60'	45'	30'	15'
90'	54'	40'-30''	27'	13'-30''
80'	48'	36'-00''	24'	12'-00''
70'	42'	31'-30''	21'	10'-30''
60'	36'	27'-00''	18'	9'-00''
50'	30'	22'-30''	15'	7'-30''
40'	24'	18'-00''	12'	6'-00''
30'	18'	13'-30''	9'	4'-30''
20'	12'	9'-00''	6'	3'-00''
10'	6'	4'-30''	3'	1'-30''
1'	0'-36''	0'-27''	0'-18''	0'-9''

PS. If the longitude of a Planet is more than 100' then reduce the longitude from 200' and see the numerical strength as above.

## Chapter 9

# Vedha Aspect of Planets

### Methodology:

After understanding nature & characteristics of planets, the next stage is to determine their Vedha aspect on the five important components of the individuals. These are as under:

- Star (Nakshatra) at birth occupied by Moon
- Sign (Rasi) at birth occupied by Moon
- Lunar Tithi at birth & birthday
- Consonant-First word of the native's name
- Vowel-Swara of the native's name

All these can be determined from the birth Chart. In case the birth chart is not available, decide on the basis of most popular latest name of the individual. The description & details of these components are given in chapter 3. Now follow the procedure as under:

### PROCEDURE :

- Place all the 9 transiting planets in their respective pada of a Star & Sign according to their longitude during transit.
- Examine their aspect on the five components, which must get Vedha aspect, before their results can be determined.
- These 9 planets have three types of Vedha aspect as under:

- Sun, Moon, Rahu & Ketu can aspect all the 3 directions. Retrograde planet can aspect only on the right direction. Fast planet can aspect only on the left direction. Planet with normal speed can aspect in front direction only.
- Front Vedha of a planet can only cause Vedha of Star & pada in opposite direction.
- Right side Vedha aspect by a Retrograde planet can cause Vedha of all the five components.
- Left side Vedha will also cause Vedha of all the five components.
- Mars, Mer, Jup, Ven, Saturn, have Vedha aspect in one direction only depending on their speed.
- As regards front Vedha by a planet some Sages suggested that this Vedha should also cover the other 4 components.
- Right & Left Vedha aspect is always angular at 45° and causes Vedha of all the components occupying vargas in that direction.

### **Special Vedha Aspect:**

- Planet in 4th pada of Bharni, causes Vedha of 1st (First) pada of Krittika and A vowel (by left aspect).
- Planet in 4th pada of Aslesha causes Vedha of 1st pada of Magha and 'AA' vowel by left aspect.
- Planet in 4th pada of Vishaka causes Vedha of 1st pada of Anuradha & 'E' vowel (by left aspect).
- Planet in 4th pada of Sravan causes Vedha of 1st pada of Dhanistha & 'EE' vowel (by left aspect).
- Planet afflicting ArdaStar, the Ku, Gha, Na, Chha consonants are also afflicted.
- Planet afflicting Hasta Star, the Pu, Sha, Na, Tha, consonants are also afflicted.

- Planet afflicting Purvashada Star, the Bu, Dha, Pha & Da consonants are also afflicted.
- Planet afflicting Uttra Bhadrpada Star, the Du, Tha, Jha, Na consonants are also afflicted.
- These consonants are not provided in SBC. Hence their Vedha may be examined in this way. These (Words) consonants belong to different pada of Stars.
- Similarly Planets occupying 4th Pada of Bharni, Aslesa, Visakha & Sravan cause Vedha of 5,10,15, 30 Lunar Tithies & Saturday which is not possible in normal course.
- **Malefic Planets:** Sun, Saturn, Mars, Rahu & Ketu, will cause malefic Vedha aspect only, although they may be in their own Signs or even exaltation Signs. They are 100% malefic.
- **Benefic Planets:** Moon, Mercury, Jupiter & Venus cause benefic Vedha aspect only. They are 100% benefic.
- Moon is benefic when it is waxing.
- Mercury is benefic when it is alone, specially without any malefic planet.
- Vedha aspect of a planet is of 2 types. Macro-when a planet aspect a particular sign. Micro - when a planet aspect a particular pada of a Star. This type of Vedha is 100% effective.
- Star to Star Vedha is less effective than pada Vedha aspect.
- Vedha by 2/3 planets in the same pada, the impact of victorious planet will prevail. Mars, Mer, Jup, Ven & Sat have only one aspect at a time depending on their speed.
- Malefic planet if Retrograde becomes highly malefic - 200%.

- Benefic planet if Retrograde becomes highly benefic - 200%.
- Malefic planet when it leaves the Vedha Star & shift to another Star, it cannot give malefic results.
- Vedha of a Lunar Tithi in Bright half (Shukla Paksha) is 100% , whereas Vedha in Dark half is only 50%.
- Each Tithi has its own consonant. So when Tithi has Vedha aspect, the consonant is also having Vedha automatically. Similarly sign of Tithi is also having Vedha.
- When a planet is causing Vedha of a particular sign, it's vowel consonant & Tithis are also having Vedha automatically.
- Retrograde planet on first pada of Kritika, 4th pada of Magha, 1st pada of Anurada, 1st pada of Dhanistha causes Vedha of 4 Vowels-A, AA, E & EE, & Lunar tithies-5, 10, 15, 30 & Saturday.

### Grading of Vedha aspect:

Grading of Vedha aspect on 5 Components: (panchakas).

Vedha aspect on Components

Components	By Benefic Planets					By Malefic Planets				
	1	2	3	4	5	1	2	3	4	5
Aspect Full	1	2	3	4	5	0.48	1.36	2.24	3.12	4.0
3/4	0.45	1.30	2.15	3.0	3.45	0.36	1.12	1.48	2.24	3.0
2/4	0.30	1.0	1.30	2.0	2.30	0.24	0.48	1.12	1.36	2.0
1/2	0.15	0.30	0.45	1.0	1.15	0.12	0.24	0.36	0.48	1.

- In the above chart each benefic planet has 5 Vedha points.
- Each malefic planet has 4 Vedha points.
- To determine the benefic or malefic influence, take the

difference of both the benefic group of planets & malefic group of planets. The total difference will indicate the actual impact of Vedha.

### Navamsa Vedha:

- Every Star has 4 padas. So all the 28 Stars including Abhijeet, have 112 Navamsas in SBC. The Planets cause Vedha of these Navamsa, by their opposite (Front) direction eg. a planet in 1st pada of Kritika will cause Vedha of 4th pada of Sravan, including pada's Vowels & Consonants & Star. This is known as Navamsa Vedha. It gives strong results when the Navama sign has also Vedha aspect.

### Special Vedha aspect of Sun

In SBC, Sun has been assigned special powers to cause directional Vedha in addition to Vedha of five components. It means, when Sun occupies a direction, East, West, North or South, the whole direction is afflicted for three months, from the date of entry in that direction till it leaves the last sign. In this way all the 12 Signs of the 4 directions are afflicted. This type of Vedha is to be calculated from Kritika Star in the East. If you examine the SBC chart, you will find Vedha details as under when Sun occupies any Star or Sign in that direction:

#### East direction:

- Vedha of Stars from Kritika to Aslesha.
- Vedha of Signs from 4th pada of Aries to Cancer.
- Vedha of Vowels-A, OO, O, LRI.
- Vedha of Consonants, assigned to each pada of a Star.
- Vedha of Tithi.

#### South direction:

- Vedha of Stars from 1st pada of Magha to 4th pada of Visakha.

- Vedha of Sign from Leo to Libra.
- Vedha of Vowels-AA,OO,OU,LREE.
- Vedha of Consonants assigned to each pada of a Star.
- Vedha of Tithi.

**West direction**

- Vedha of Stars from 1st pada of Anuradha to 4th pada of Sravan.
- Vedha of Signs from Scorpio to Capricorn.
- Vedha of Vowels-E,RE,AE,AM.
- Vedha of Consonants assigned to each pada of Star.
- Vedha of Tithi.

**North direction:**

- Vedha of Stars from 1st pada of Dhanistha to 4th pada of Bharani.
- Vedha of Signs from Capricorn to Aries.
- Vedha of Vowels-EE,REE,AEI,AHA.
- Vedha of Consonants assigned to each pada of a Star.
- Vedha of Tithi.
- Similarly when Sun occupies a particular Star, three Stars before & after are afflicted by Sun including the Star occupied by it.
- Similarly when a malefic planet afflicts any pada of a Star (by conjunction or aspect) the Consonants, Vowel, are also afflicted. This causes danger to life & position specially when all 5 Components are afflicted.
- Similarly when one of the following Vowel is having Vedha, it's counterpart is also having Vedha:

Vowels having Vedha	Vowel having automatic Vedha
A	AA
E	EE
U (small)	OO (big)
RE	REE
AE	AEI
O	OU

### FRONT VEDHA

As already indicated some Sages have recommended front Vedha of Star only. But some eminent Sages have suggested front Vedha of all five components (Panchakas). I suggest front Vedha of all the five components should be considered but its benefic impact is only 50%

### SPECIAL NOTE ON VEDHA

Vedha means a special relationship between the planet in motion & other celestial bodies, which are fixed in the SBC of the native. Aspects by planets play important role in influencing human life, nations, commerce, trade, industries, agricultural products, market fluctuations. The benefic or malefic impact depends on strength of the planet, its benefic or malefic nature, its motion (speed), its conjunction with other planets-when 2 planets occupying same longitude in a Star or its pada, or aspect by 2 planets occupying 2 different Signs but occupying same degree in their Signs or opposition aspect by 2 planets opposite each other at a distance of 180° eg Sun 10° in Aries and Saturn 10° in Libra. This aspect is most dangerous.

**Vedha by Benefic Planets in Lucky years: According to Astrology 9th house Lord & its occupants are lucky planets.**

9th house sign	Lord	years	Lucky Business
Aries/Scorpio	Mars	28	Iron, wool, clothes
Taurus/Libra	Venus	25	Sugar, cotton, clothes
Gemini/Virgo	Mercury	32	Grains, Jute.
Cancer	Moon	24	Silver
Leo	Sun	22	Gold
Sagit/Pisces	Jupiter	16	Ghee, oil, Yellow items.
Capricorn/Aqua	Saturn	36	Oil, silk, shares
Rahu in 9th house	—	42	Animals
Ketu in 9th house	—	42	Animals, blanket, wool-black
Uranus in 9th house	—	36	Factories, machines
Neptune in 9th house	—	24	Electrical goods
Pluto in 9th house	—	44	Medicines, mines

**Normal Vedha aspect of Planets :**

Sun : It has uniform speed. So it has Vedha power of aspecting all the directions — Right, left & front.

Moon : as above

Rahu and Ketu : These two planets have uniform speed being retrograde through out the year Hence these two planets also have Vedha power of aspecting all three directions — Right, left & front.

Mars  
Mercury  
Jupiter  
Venus  
Saturn ] : All these planets have no uniform speed. So they will have the Vedha power as under :  
When Retrograde in Transit : Right direction. When in high speed in Transit : Left direction. When in normal speed in Transit : Front direction.

I may indicate here that there is some minor difference in Vedha & aspect. Aspect is usually applied in Astrology Where as Vedha or Vedha aspect is applied in S.B.C.

**Note :** See Chapter 18 for Sarvato Bhadra Chakra.

## Chapter 10

# Forecasting Methodology - Future of Individuals

### Introduction:

Sarvato Bhadra Chakra can be successfully & scientifically applied for prediction of the individual's future events. For this purpose carryout the following directions:

- Prepare a Sarvato Bhadra Chakra—draw on a metal sheet or wooden plank.
- Prepare five wooden figures of birth Star, lunar tithi, day, swar/ words, and sign. In addition, place 9 figures of birth planets according to their longitude.
- Place all the figures in appropriate houses out of 81 vargas indicated in SBC. Their position will clearly indicate the Panchakas position in birth chart.
- Now place 9 figures of moving planets at the time of forecasting in appropriate padas of Stars.
- Mark speed of each planet-Direct, high speed, direct normal speed & Retrograde motion.
- Decide direction of Vedha-Direct, Right or Left.
- Decide the benefic/ malefic nature of planets.
- Decide the numerical strength of planets.
- Decide whether the planet is rising, combust, exalted or retrograde.
- Decide & mark Vedha of constituents in SBC.

- Decide the operation and duration of benefic & malefic impact on native according to different Vedha norms.
- Decide Vedha of a Star etc by benefic planet & it's strength for imparting benefic results.
- Similarly decide magnitude of malefic results due to Vedha by a malefic planet.
- Remember that Moon, Mercury, Venus & Jupiter are considered benefic planets irrespective of their nature in birth chart.
- Similarly Mar, Sun, Saturn, Rahu & Ketu are declared malefic planets irrespective of their nature in natal chart.
- Remember front Vedha means Vedha of Star in opposite direction only.
- Remember Right or Left Vedha means Vedha of all the constituents of the SBC, including Star.
- The SBC has 81 vargas only & they are occupied as under:
- Occupied by Stars : 28 (including Abhijit)
- Occupied by Signs : 12
- Occupied by Tithies and Days : 5
- Occupied by Vowels : 16
- Occupied by Consonants : 20

In addition SBC indicates (in outer space) 12 Signs & padas.

### Future of Individuals (Horary Norms) :

Sarvato Bhadra Chakra can be successfully applied for predicting future of individual. The forecasting may be yearly, fortnightly or daily. For horary prediction, the meth-

odology is described on the next page. The procedure is as under:

- Determine the actual longitude of Sun on the first day of Hindu Year, first day of lunar date (Tithi) Shukla Paksha & Krishna Paksha and the longitude of Moon for daily prediction.
- Place Sun & Moon in the proper Star in separate SBCs.
- Place the other planets in both the SBCs as under from the Star of Sun & Moon irrespective of their actual position (Longitude).

Planets	Yearly Chart	FN chart	Dailychart
Sun	Actual Star	Actual Star	5th Star form Moon
Moon	do	12th Star	Actual Star
Mars	do	5th Star	7th Star
Mer	do	28 Star	10th Star
Jupiter	do	17th Star	14th Star
Venus	do	3rd Star	19th Star
Saturn	do	26th Star	25th Star
Rahu	do	16th Star	13th Star
Ketu	do	12th Star	21st Star

Now record the Panchakas of individuals in SBC & also record the above planets in SBC. The forecast will be astonishing but depending on the nature & the numerical strength of the Vedha planet, on those specific dates. **The Vedha results supplement the forecast indicated in SBC.**

In Horary, find out the actual longitude of the Sun & indicate its position in SBC. In addition, indicate the position of other planets as indicated below:

**Planet**

Sun	Place Sun in actual Star occupied by Sun				
Moon	Place Moon in 3rd Star from Sun's Star				
Mars	"	"	7th	"	"
Mercury	"	"	13th	"	"
Jupiter	"	"	20th	"	"
Venus	"	"	27th	"	"
Saturn	"	"	12th	"	"
Rahu	"	"	19th	"	"
Ketu	"	"	25th	"	"

In this chart also record Panchakas (five constituents) of individuals in SBC and also the above planets at their appropriate position in the SBC. The Vedha results depend on benefic/malefic strength of the planets.

**Standrad practice for Vedha in SBC:**

- Mark the five Components (Panchakas) in the SBC including birth Ascendant.
- Check up the Vedha affliction of these Components by the planets-benefic as well as malefic-all in transit.
- The forecaste will be as under:

**Vedha by one Malefic planet:**

- of one Component : Failure in efforts dispute & war.
- of two Components : Fear, & loss.
- of three Components : Destruction & defeat.
- of four Components : Illness & death.
- of five Components : Death.

- Vedha by 2/3 Malefic planets:
- of Star : Confusion.
- of Sign : Obstruction.
- of Tithi : Fear, danger.
- of Consonants : Financial loss.
- of Vowel (swar) : Illness.

Vedha by Rahu: Obstructions, heart trouble, giddiness, danger, romance with a widow.

**Vedha by Ketu :** Loss of wife, danger from government, defeat in objectives and pain in body.

**Note:** If birth Star is having Jupiter's Vedha, no harm is possible even if 2/3 malefic planets have Vedha of five components. It ensures all types of protection.

**Vedha of a Star is of three types as under:**

- A malefic Planet has just vacated a Star: Malefic event just occurred.
- A malefic planet has just occupied a Star: Malefic event is taking place.
- A malefic Planet will soon occupy a star: Malefic event will occur soon.
- Avoid such a day for all important activities.
- If a benefic planet has vacated a Star or has occupied a Star or will occupy a Star, benefic results are bound to occur.
- If Moon has left a Star, that Star is not malefic for any auspicious work.
- Vedha by Mercury : Improvement in intelligency.

### **Special notes on Vedha of Birth Star causing death:**

Vedha of Birth star indicates death of individual native. The death may even take place within a month by weapon, poison, or murder by any instrument. This is possible under the following circumstances:

- Birth Star & its pada is conjuncted by two malefic strong planets.
- Birth Star & its pada is having Vedha by two malefic planets from two different directions.
- Birth Star is conjuncting with a strong malefic planet and other malefic planet is causing Vedha of Birth Star.
- Birth Star and Latta Star are synchronising. Details about Latta Stars are given in appropriate chapter.
- Birth Star and a Upgraph are synchronising.

- Birth Star is related (aspect/conjunction) to strong malefic planets in Birth chart. This is in addition to Vedha in SBC.
- The 10th Star, known as Karm Star, from Birth Star, is having similar combinations as above, the native will have danger from snakes, animals, water, fall or accident. The death may take place with in 73 days.
- The 16th Star, known as Sanghatik Star, from Birth Star, is having similar combinations as above, the native may die with in 95 days in his own house.
- If Mars is on 23rd Star & Sun & Moon on 25th Star, death is possible within a year due to sickness.
- If Mars is on 25th Star & Sun & Moon on Birth Star than death is possible with in 6 months.
- If Saturn is on Birth Star, and Mars & Moon on 10th Star than death within 3 months is possible due to suicide or murder.
- If Saturn occupies 10th Star & Mars & Moon occupy 16th Star than death with in a year is possible due to fire.
- If Saturn occupies 16th Star & Mars & Moon occupy Birth Star than death is possible within 4 days or 4 months.
- If Saturn occupies Birth Star & Mars & Moon occupy 23rd Star, death is possible with in 8 months due to woman.
- If Saturn occupies 23rd Star & Mars & Moon occupy 25th Star, than death is possible within 8 months due to hunger.
- If Saturn occupies 25th Star & Mars & Moon occupy Birth Star, than death is possible within 6 months due to sickness.
- If Birth Star & other Stars have benefic Vedha or

conjunction than benefic results are bound to happen.

- If these 9 Stars are having malefic Vedha, malefic results are bound to happen, so avoid all auspicious activities.
- If 18th Star from Birth Star has similar five combinations, the native may die within 4 months by weapon, imprisonment or poison.
- If 23rd Star from Birth Star has similar five combinations the native may die within five days due to injury, sickness or hunger.
- If the 25th Star from Birth Star has similar five combinations the native may die within 4 months due to sickness.
- If Sun is on Birth Star & Mars & Moon on 10th Star death within 12 days is possible due to imprisonment by enemy.
- If Sun is on 10th Star & Mars & Moon on 16th Star, death within a month is possible.

- If Sun is on Birth Star and Mars & Moon on 23rd Star, death due to blood disease or Anus disease is possible.
- If Sun is on 23rd Star & Mars & Moon are on 25th Star, death in 6 months is possible.
- If Sun is on 25th Star & Mars & Moon are on Birth Star, death in 3 months is possible.
- If Mars is on Birth Star & Sun & Moon on 10th Star, death in 4 days or 4 months due to water is possible.
- If Mars is on 10th Star & Sun & Moon on 16th Star, death in 4 months due to wild animal is possible.
- If Mars is on 16th Star & Sun & Moon on Birth Star, death is possible any time due to sickness.

- If Mars is on Birth Star and Sun & Mars on 23rd Star death is possible due to stomach disease.

**Additional notes :**

- Sun is Atma & is supposed to give benefic results.
- How Sun will give benefic results, examine birth Star & Nadi.
- Longitude of Sun & Moon is most important and benefic results are assured when benefic planets transit or aspect these points in SBC.
- Charan (pada) is most important for determining the micro results e.g. treat a Star = 1 year & one charan = 3 months.
- Moon transits a Star for 24 hours. Transit in each pada indicates 6 hours duration. Whenever any significator along with Moon transits this pada or Malefic planet and markesh enters this pada indicate benefic/malefic event during 6 hours.
- Synchronise native's birth chart, chalit chart & transit chart for micro decision.
- Also examine Drekkana chart for that time.

- Prepare shadvargas for different activities. For Marriage prepare Navamsa chart. Find out the planet ensuring marriage & mark in SBC.
- Exalted planets in natal chart & Navamsa chart are very powerful & beneficial.
- Treat Birth Star as first year of life & 27th Star as 27th year. Repeat the cycle again e.g. Birth Star will indicate-1st year, 28th year, 55th year, 82nd year of life. Find out the benefic years according to classification of Stars.
- Similarly examine the Dasa & Antar dasa lords. If they occupy beneficial Stars e.g. 2, 4, 6, 8, 9, the result are bound to be benefic.
- Synchronising the above positions of planets with SBC, determine the timing of event & also micro results.
- Determination of exalted strength & shadvarga strength is essential to determine benefic & malefic results & also their potentiality.  
e.g. Sun lord of 10th house in natal chart, occupy 12th house & Sun is joined by Mars & aspected by Rahu. If Sun is weak, it will give malefic results.
- Determine the significations of each planet. eg. Rahu indicate death, destruction, demotions and dissolution. Saturn indicates sufferings, losses, unhappiness and failures.
- Whenever a benefic planet aspects the Punya Saham, it gives benefic & important results in that particular year, depending on house occupied & owned by such a planet.
- Vedha results from Moon's Star are valid for one year & Vedha results from Sun's Star are valid for 9 years.
- Vedha by a benefic, of Ascendant & its lord is always good.

- Planets occupying benefic Stars eg. 2, 4, 6, 8, 9 is always benefic e.g. Jupiter in 7th house occupying 4th pada of Rohini in Taurus, Lord of 5th house & occupies Pawan Nadi and aspecting 11th house & 3rd house. Since Jupiter is exalted in Navamsa, it will ensure heavy legal income from many sources.

### Special Vedha aspect results of Sun :

#### Vedha by Sun:

- Vedha of Tithi : Danger or death possible.  
 Vedha of Sign : Set backs & obstructions.  
 Vedha of Vowels : Sad events, unhappiness & failures.  
 Vedha of Consonant : Financial loss & no success.  
 Vedha of Star : Sickness & all round disappointments.  
 Vedha of all five : Death possible. Avoid marriage, travelling, entering a new house, filing a suit, new business, new job & election.

### Sapta Nadi and Vedha of Nadi Lord :

From the following table, locate your Birth Star, your Nadi and your Nadi Lord eg. Birth Star Revati, than your Nadi will be Dehan & its lord will be Mars.

Nadi:	Prachand	Pawan	Dehan	Sobhya	Neer	Jal	Amrit
Lord:	Saturn	Sun	Mars	Jup	Venus	Mercury	Moon
Stars	Krittika	Rohini	Mrga	Arda	Punarvasu	Pusya	Aslesha
Stars	Visakha	Svati	Chitra	Hasta	U.Phal-guni	P. Phal-guni	Magha
Stars	Anuradha	Jyestha	Mula	P. Shada	U. Shada	Abhijit	Sravana
Stars	Bharani	Asvini	Revati	U. Bha-dra-pada	P. Bha-dra-pada	Sat-bhisaj	Dhani-Stha
Direction	Malefic in South			—	Benefics in North		

**Prachand Nadi** : Most dangerous. Two malefic planet on this Nadi cause greatest harm. Benefic planets (strong) indicate good luck.

**Pawan Nadi** : Lot of travelling but without any benefic results.

**Dehan Nadi** : Mental tension, setbacks, quarrels, spoil business and carrer.

**Sobhya Nadi** : Benific results of Vedha by benefic planets. Ensure many type of happy events in the life.

**Neer Nadi** : Hard work necessary to achieve the desired results. Opporturnities during the period are plenty.

**Jal Nadi** : All expectations are full filled. Some benefic & some malefic results are also possible.

**Amrit Nadi** : Ensures permanent benefic results.

**P.S.** : See chapter three also.

#### Notes:

- Benefic & Malefic planets on a particular Star or Stars of a Nadi, will be considered as if they are moving on all the Stars of that Nadi.
- If lord of the Nadi (Planet) is moving on a Star of the Nadi, it will give results according to the classification of the Nadi.
- If benefic or malefic planet alone move over the Nadi, either with Moon or without Moon result will not be satisfactory. If only two benefic planets occupy a Nadi, it is most beneficial.
- If benefic planet along with Moon (full) join on Neer, Jal or Amrit, it ensures benefic results.
- If benefic planet along with benefic Moon joins Amrit Nadi, it ensures many happy and permanent results.
- If benefic planets (two or three) along with one or two malefic planets join on Prachand, Pawan or Dehan

Nadi, they give 25% benefic results only.

- If more malefic planets & less benefic planets occupy Neer, Jal & Amrit Nadi, they give unsatisfactory results.
- If Venus & Moon occupy Neer, Jal & Amrit Nadi, they give most benefic results.
- If Venus & Moon occupy Prachand, Pawan & Dehan Nadi, they indicate only hope but no achievement.
- If Sun, Moon & Venus occupy any Nadi, they indicate realisation of objectives.
- If Moon, Jupiter & Venus or Moon, Mercury, Jupiter & Venus occupy a Nadi, they indicate benefic results of permanent nature.
- If Sun, Moon & Saturn occupy any Nadi they indicate most malefic period.
- Any strong, retrograde or exalted planet on Jal Nadi indicates success in efforts.
- If planets are strong, malefic, having malefic relations indicate only malefic results.
- If fast moving planet is ahead of slow moving planet, on a Star, but both benefic, ensure success & happy results.
- If two or more planets occupy any Nadi, they give results according to Nadi's name.
- If any planet occupy or move on its own Nadi, it gives results according to the name of the Nadi.
- If Mars occupy or move on any other Nadi, in addition to its own Nadi, it gives results of that Nadi only.
- If Moon along with two benefic planets move any Nadi Star, it ensures most benefic results.

### Vedha results of Upgrahas:

The Upgrahas given in the following chart are counted from Star occupied by Sun and indicate the Star occupied by them on a particular day. These Stars indicate malefic day for all purpose & failures if some activity is carried out on that day.

Star of Upgraha from Sun's star:	Results:
Sun's own Star	Malefic results.
5th Star – Vidyutmukh	Death of child & fall.

23rd Star – Bajra	Setbacks in profession & danger.
24th Star – Nirghat	Setbacks in profession & danger.

#### Notes:

- The above position of Stars does not include Abhijit Star.
- If these Stars are afflicted along with birth Star by malefic conjunction or aspect, the malefic results will be more serious.
- If two malefic planets are jointly afflicting above sensitive Stars-from Sun, along with birth Star, even death may take place.
- The day's Stars, occupied by malefic planets, are Stars at S. No. 5, 8, 14, 18, 21, 22, 23 and 24 are 100% malefic days and should be avoided for all purposes. Otherwise malefic events may take place.
- If birth Star itself is occupied by Upgrah, this indicates

a serious warning. It may cause bad health, accident, dispute. If a malefic planet & Upgraha falls on birth Star, this is a serious indication & may cause death.

### Vedha of Stars, from Birth Star by Planets and their Vedha results:

Birth Star	Janma	Danger to Native & death--If Vedha by 2 strong malefic planets.

25th Star Jati	Destruction of family & community
26th Star Desh	Defeat by enemy. Division of Desh or property.
27th Star Abhishek	Imprisonment, murder, destruction of house.

### Notes :

- Any benefic planet having Vedha of benefic Stars eg. 2, 4, 6, 8, 9 from Birth Star the benefic results are assured with full satisfaction.
- Any malefic planet having Vedha of malefic Stars e.g. 3, 5, 7, the malefic results will increase.
- Any benefic/malefic planet having Vedha of birth Star (Janma Star), the results will be according to planet's nature.
- Janma Star may be treated as Ascendant, if Vedha is caused by benefic planet, it causes wealth, respect, position, good health etc. If Vedha is by malefic planet, it may even cause death.
- Stars are always fixed & cannot give benefic/malefic results unless planets transit these Stars. Planets move in the Zodiac. Their influence & impact in SBC is most important.
- Stars Vedha in SBC is considered most important for all types of predictions.
- Vedha of Birth Star in the same pada by a strong malefic or two malefics, may even cause death. Birth Star is the first Star of birth, 10th Star (Karma Star) is also Birth Star but malefic impact on this Star is much less.

---

Similarly 19th Star (Adhan Star) is also birth Star, Malefic impact on this Star will not cause death, but only separation from family & foreign travel.

- Vedha of Birth Star may be direct or indirect. However if Latta Stars & Upgrahas Stars are also synchronised, the impact of malefic Vedha will be severe.

**Note:** See Chapter 18 for Sarvato Bhadra Chakra.

## Chapter 11

# Forecasting Methodology-How to Determine Benefic Mahurata

### Introduction:

Astrology has prescribed large number of benefic Mahuratas-Common for all purposes. In Addition Astrology has prescribed special Mahurata for each auspicious activity eg. entering into a new house, marriage, buying vehicle or gold, post natal ceremonies, education, opening a new shop or Starting a new business, travel etc etc.

In SBC, when some benefic planets in motion, transit the birth Star and other consonants of the native, create most auspicious Mahurata for all types of activities. This Mahurata should however be synchronised with auspicious Mahurata according to natal chart of the native.

### Methodology:

Mark the following auspicious Stars in the SBC of the native:

#### Type of Stars in general :

Birth Stars :	1, 10, 19	Neutral
Sampat Stars	2, 11, 20	Benefic
Vipat Stars	3, 12, 21	Malefic
Kshemya Stars	4, 13, 22	Benefic
Pratwara Stars	5, 14, 23	Malefic
Sadhka Stars	6, 15, 24	Benefic

Naidhana Stars	7, 16, 25	Malefic
Maitra Stars	8, 17, 26	Benefic
Param Maitra Stars	9, 18, 27	Benefic

P.S. : See Chapter 10 also.

#### Notes :

- The above system does not include Abhijeet Star.
- The birth Star can be determined from the star occupied by Moon.
- If birth chart is not available, determine the Star according to the latest popular name of the native.
- Ensure benefic aspect on Birth Star, Birth lunar date, Moon sign, Navamsa sign, on a particular day. If there is no malefic aspect, it indicates 100% success.
- If malefic Vedha aspect is prominent, it indicates failures.
- If all the four benefic planets are having Vedha, 100% success is assured.
- If only Jupiter is causing benefic Vedha, it indicates improvement, success, gain & victory.
- If only Venus is causing benefic Vedha, it indicates happiness and romance.
- If only Mercury is causing benefic Vedha, it indicates success in examination.
- If all the malefic planets are having Vedha-100% failure in efforts, death & financial loss is possible.
- If Sun is causing Vedha, it indicates, disappointment and tension.
- If Mars is causing Vedha, it indicates dispute, accident or death.

- If Saturn is causing Vedha, it indicates serious sickness & loss.
- If Rahu is causing Vedha, it indicates accident & injury.
- If Ketu is causing Vedha, it indicates food poisoning.
- If birth Star is having malefic Vedha, it indicates loss.
- If birth sign is having malefic Vedha, it indicates demotion and setbacks in profession.
- If Navamsa is having malefic Vedha, it indicates failures, disappointment & death.
- The benefic & malefic Stars should be clearly marked in SBC.
- When 2/3 malefic planets conjunct or aspect 1, 10 or 19th Star, reject such a time for all important activities.
- Stars at number 3, 5, 7, 12, 14, 16, 21, 23, 25 are most malefic & avoid all important activities on days, which are occupied by these Stars.
- If malefic planets are having Vedha, of panchakas, the results will be as under :
 

Marriage	: Marital discord & divorce.
Travel	: Never return back.
Medical treatment	: No recovery.
Financial transactions	: No recovery & loss.
- If Sun is involved in malefic Vedha-Disappointments.
- If Mars is involved in malefic Vedha-Death.
- If Saturn is involved in malefic Vedha-Financial loss.
- If Rahu is involved in malefic Vedha-Accident.
- If Ketu is involved in malefic Vedha-Poisoning.
- If Malefic Moon is involved in malefic Vedha-Malefic results.

- 
- If Malefic planet/planets is/are strong, such a day must be avoided for all auspicious activities.
  - Whenever Sun transit any direction in SBC-East, South, West or North-the Sign, Star, Navamsa etc. become combust & most unpropitious.
  - Whenever any malefic planet is causing Vedha of a particular pada of a particular Star, the whole Star become malefic & should be avoided.
  - Avoid conjunction of malefic planet on birth Star.
  - Avoid aspect of malefic planet on birth Star.
  - Avoid birth Star if occupied by Latta Star.
  - Avoid birth Star if happens to be a Star occupied by Upgrah.
  - Avoid aspect of malefic planets on other birth components.
  - Avoid the day on which birth Star is occupied by Sun, Mars or Saturn.
  - Avoid the day, on which the Stars at S. Nos. 10, 19, 12, 23, 16, 25 are occupied by Sun, Mars, Saturn or Malefic Moon.
  - Avoid the day, which is owned by birth star and is occupied by all the malefic planets.

**Another method for determining Benefic/Malefic Mahurata :**

- Decide the malefic sensitive Stars from Sun which are owned by Upgrahas. These Stars falling on a particular day are considered malefic as under. These should be avoided for all auspicious activities specially marriage :

Star on a particular day from Sun Star (Upgrahas)	Results	Worship planets to avoid malefic impact
- Sun Star	Malefic	Sun
- 5th Star from Sun's Star	Death of child.	Sun
- 8th Star from Sun's Star (Shoola)	Death of husband.	Moon
- 14th Star from Sun's Star (Sannipat)	Death of husband or Son.	Mars
- 18th Star from Sun's Star (Ketu)	Death of brother in law.	Mercury
- 21st Star from Sun's Star (Ulka)	Financial loss & danger.	Jupiter
- 22nd Star from Sun's Star (Kampa)	Death of relatives.	Saturn
- 23rd Star from Sun's Star (Bajira)	Setbacks in profession. Danger from weapon. Sex	Venus
- 24th Star from Sun's Star (Nirghat)	Separation from family.	Rahu

### Notes :

Exclude Abhijit Star for counting position of Upgrahas. In addition, if the birth Star is also afflicted by malefic conjunction or aspect, the malefic results will be more serious, even death. So avoid days on which the above Upgrahas Stars are located & there is malefic Vedha also on the Star and also birth Star. Viz birth Star is occupied by a Upgraha & also having Vedha by malefics.

### Malefic Latta Dosh :

- In determining the auspicious time, avoid the followings Stars, specially when a malefic planet is causing Vedha aspect :

Position of Latta Star from a Star occupied a planet	Behind/ Front for counting	Result	Results if Latta falls on birth Star
12th from Sun's Star (Sun's Latta)	Front	Death, defeat	Professional setbacks and loss.
3rd from Mars Star (Mars Latta)	Front	Set backs	Set backs, danger, death and Loss.
6th from Jup's Star (Jup's Latta)	Front	Illness	Loss of relatives, separation and sufferings.
8th from Sat's Star (Sat's Latta)	Front	Danger, fear	Death, serious danger, loss, theft and sickness
22nd from Moon's Star (Moon's Latta)	behind	Danger, death	Set backs, danger, travel and disease
7th from Mercury's Star (Mer's Latta)	behind	Death of relative	Separation, Loss and confusion
5th from Ven's Star (Ven's Latta)	behind	Set backs	Loss of relatives, discord with wife and sex disease
9th from Rahu & Ketu Star (Rahu/Ketu Latta)	behind	Death	Financial loss and danger

e.g. If Sun is on Kritika Star, than its will effect Chitra Star, being 12th Star from its own position. Such a Star should be avoided for all purpose. In such a case when such a Vedha Star, (Chitra) has malefic conjunction or Vedha by malefic planet, it becomes very malefic.

- When any planet is Retrograde, find out the position by reversing the above combinations.
- Any Malefic planet in transit conjuncting or having Vedha of Latta Star, defeat, death, travel widowhood is possible.
- For counting the position of Latta Star, do not include Abhinit Star. Consider only 27 Stars.

## Chapter 12

# Forecasting Methodology: How to Determine Sickness & Accident

### Introduction :

When a person is seriously sick or injured in accident, a question arises whether the person will recover or will face end. These question can be easily decided from SBC as under:

- Indicate all the five componants of the individual on the SBC, at the time of serious sickness or accident.
- Indicate all the 9 planets in transit, in relevant Vargas of Stars, at the time of serious sickness or accident.

### The results of malefic Vedha :

- If a retrograde malefic planet is causing Vedha of birth Star and other components: Death is possible.
- If a fast malefic planet is causing Vedha : Disease will prolong.
- If Sun is causing Vedha: Severe pain & fever is possible.
- If Mars is causing Vedha: Breathing problem and bleeding is possible.
- If Rahu is causing Vedha: Heart trouble or severe type of problem is possible.
- If Ketu is causing Vedha: Severe type of fits or pain.
- If Saturn is causing Vedha: Severe pain, sickness and

death is possible.

- If Birth Star is afflicted by 2/3 Malefic Planets: Eye disease, confusion is possible.
- If Consonant is afflicted: Vomiting and indigestion.
- If Vowel is afflicted: Mouth, teeth and ear disease.
- If Tithi is afflicted: Skin disease and rheumatic pain.

- Vedha by 4 or 5 Malefic planets of components of SBC: Serious sickness or death is possible.
- Vedha of Birth sign by 4-5 Malefic Planets: Death.
- Vedha by Sun, Saturn, Mars, Rahu or Ketu of Birth Star & Birth Sign: Death is possible.
- Vedha of Birth Tithi by 4-5 Malefic Planets: Death.
- Vedha of Birth Consonant by 4-5 Malefic Planets: sickness and Death.
- Vedha of Birth Consonant by 4-5 Malefic Planets: Sickness and Death.

- Vedha of 1st Star, 23rd Star, 18th Star 16th Star from Birth Star by two or more Malefic Planets may cause death.
- The 16th Star from Birth Star is having Vedha by Malefic Planets, the native may die in his house within 96 days.

## Chapter 13

# Forecasting Methodology-How to determine success in National Politics and War

### Introduction

For ensuring correct political predictions synchronising of the SBC with the Kurm Chakra is essential. In this Chakra India is divided into 9 regions. Each region has been assigned three Stars as signifiers of that region. This Kurm Chakra is useful for determining the directions as under :

- Directions of the different regions in the world.
- Directions of the countries.
- Directions of different regions in a Country.
- Directions of different parts of a city & region.
- And many types of sub-sub directions.

### Directonal Vedha Power of Sun:

As explained in chapter 9, Sun has special Vedha powers to cause Directional Vedha. It means that when Sun occupies a Star belonging to a particular direction-East, West, South & North, the whole direction is afflicted for three months from the date of entry of Sun in that direction till it leaves the last Star & Sign of that direction. In this way all the directions are afflicted.

### Victory in War :

- For victory in war, army should attack the direction, which is afflicted by Sun for 3 months. This can en-

sure success in war & enemy will be defeated. These afflictions are as under:

East direction is afflicted when Sun transits 2, 3, 4 Signs.

South direction is afflicted when Sun transits 5, 6, 7 Signs.

West direction is afflicted when Sun transits 8, 9, 10 Signs.

North direction is afflicted when Sun transits 11, 12, 1 Signs.

**Notes :**

- If both the Countries are suffering from affliction, the country which is having stronger affliction will be defeated.
- Determine the five components of the country whose future you want to know.
- If you are interested in defeat of any country, the panchakas of that country should have maximum affliction.
- If you are interested in victory of any country, the panchakas of such a country should have maximum benefic Vedha aspect by benefic planets only.

**Note:**

Similarly know the future of individuals participating in war.

**In brief, the result of War will be as under :**

- One malefic planet is afflicting-Danger.
- Two malefic planets are afflicting-Defeat.
- Three malefic planets are afflicting-Danger & defeat.
- Four malefic planets are afflicting-Imprisonment of leaders.

- 
- Five malefic planets are afflicting-Death in war and destruction.
  - Saturn is causing Vedha-Severe loss of army personals.
  - Mars is causing Vedha-Severe injuries to army personals.
  - Sun is causing Vedha-severe wound to army personals.
  - Rahu is causing Vedha-Destruction & financial loss.
  - Benefics planets are causing Vedha-Success, Victory & gain.
  - If malefic planet is afflicting Consonant-Death is possible.
  - If planning to attack enemy's country, ensure enemies varga's are combust.
  - Your Vargas should never be combust. Also see that enemy's Consonant, Sign, Star are afflicted by malefic planets, in addition to Sun's transit in that direction.
  - If both the Countries are having the same type of Vedha than examine Vedha of components (Panchakas) in begining or in end is essential. If Vedha is by 2/3 malefic planets, the defeat of enemy is must.
  - If the Stars of both the Countries are combust at the same time, than the country which attack first will be victorious.
  - If any country, region, city have Vedha by 2 malefic planets from two directions, the destruction of that Country is 100% possible.

# Forecasting Methodology : Horary

### Introduction :

There are several methods in Astrology to determine the benefic/malefic future of an individual or of a county or a specific problem. Whenever the horoscope is not available, such questions can be answered through Horary. Horary is frequently applied in Astrology. Similarly Horary is applied in SBC, and correct answers can be given through SBC. The SBC norms are as under:

### Methodology :

- Erect SBC for the moment, when somebody asks a question.
- Determine the first letter of the question put up by any individual.
- This letter may be treated as consonant, just like the name of the individual.
- Then find out pada, Star, owned by this consonant.
- From the consonant & pada of Star, you can decide the sign & also vowel.
- Examine if this consonant, pada of Star & Signs are afflicted by any malefic planet, transiting a Star or sign from where it is casting a malefic Vedha aspect on the consonant etc. If so, the malefic results are bound to happen.
- If there are both Banefic & Malefic aspects, than mixed results are possible.

- 
- If sign involved is, 1, 4, 7 or 10th sign (movable) then lost item will not be recovered, a sick person may die, new born child may not live long & success in any effort may not be possible.
  - If sign involved is 2, 5, 8, 11 sign, then benefic results are indicated. Lost items may be recovered after some-time, sickman will recover & success in any effort will be possible.
  - If sign involved is 3, 6, 9, 12 sign then success is indicated any moment.
  - If one panchaka (components) or a Star is afflicted by two malefic planets from two sides, death of a sick person is possible.
  - If sign has benefic Vedha aspect, benefic results are possible, but depending on the strength of the planet.
  - If consonant is afflicted, it indicates loss of position.
  - If consonant is afflicted by two sides, death is possible.
  - If consonant is afflicted by two or more malefic Vedha then loss of position, death & loss of property is possible.

**Note:** In addition see chapter 18-Dhuajadi Chakra for Synchronising the results.

## Chapter 15

# Forecasting Methodology: How to Determine Prices of Commodities

### Introduction :

For commercial community, the price of a commodity, at a particular time & in a particular city play a very important role to determine their business success. Our ancient sages have laid down very useful norms to determine price fluctuation through SBC. Before the norms are explained, we should know, the important constituents for determining the price level.

### Definitions :

- Country : Regions, States & Cities.  
eg. Bharat, Delhi state, New Delhi.
- Commodity: Dhatu, Root (Mool), Living things (Jeeva).  
eg. Gold, trees, animals/persons.
- Time : Year, Month, Day.

### Significators :

- Dhatu : Saturn, Mars & Rahu.
- Root (Mula) : Sun, Venus & Ketu.
- Jiva (All type of living things) : Moon, Mercury, Jupiter.
- Country : Stronger among Saturn, Jupiter & Rahu .
- Region or state : Stronger among Sun, Venus & Ketu.

- Town or City : Stronger among Moon, Mars & Mercury.
- Year : Saturn, Jupiter, Rahu & Ketu.
- Month : Sun, Mars, Mercury or Venus.
- Day : Always Moon-useful for predicting daily fluctuations.

Male Planets : Sun, Jup, Mars, Rahu & Ketu.

Female planets : Moon & Venus.

Eunuches : Saturn & Mercury.

Colours : White - Venus & Moon.

Red - Sun & Mars.

Yellow - Jupiter

Black - Sat, Rahu & Ketu

Green - Mercury

- Commencing of Year: Jupiter's Sankranti-when Jupiter enters a new sign or Chaitra Shukla Pratipada.
- Commencing of Month: Pratipada of Shukla Paksha.
- Commencing of Day : When Sun rises.

#### Notes:

- Whenever Year, Month and date in a country are different, that date should be considered.
- Dhatu (Metals) : Gold, silver, iron, steel, copper, brass etc.
- Mool (Root) : Vegetables, fruits, herbs etc.
- Jeeva (Living things): Man, animals, birds, insects.
- Country : Note the first word of the popular name and determine the consonant, vowel and also determine the Star, sign & tithi, of the country.

- Commodity: Similarly from the first word of commodity, decide the Panchakas.
- Time: Similarly decide the panchakas from the 1st lunar tithi and from tithi, find out the Star & sign.
- Sometimes, the consonant & the vowel are the same. In such cases, treat the first word of the most popular latest name as consonant & also vowel e.g. Amar.
- Prepare Panchaka chart of the country, commodity & time and also padas of their Stars.
- Decide the strength of transiting planets & their position.
- Decide the Sign Lord of the country, commodity & time.
- Decide the planet causing affliction either by aspect or conjunction.
- The total impact of benefic or malefic Vedha aspect depends on the strength of planets causing Vedha.
- Strength of planet causing Vedha :
 

Sign:	Own	Friends	Neutral	Enemy
Benefic Planets:	100%	75%	50%	25%
Malefic Planets:	25%	50%	75%	100%
- Planets are more strong when in the middle of the sign.
- Planet if exalted, the benefic/malefic strength will be three times.
- Planet if debilitated the benefic/malefic strength will only be 50%.
- If the lord of the Country or commodity or time is also a Vedha planet, the impact will be 100%, if friendly 75% if neutral 50% and if enemy, the impact of price variations will be 25%.
- Synchronise the relations between the lords of the Country, State, City, Year, Month, Day, and Commod-

---

ity with the actual lords based on the name of the Country, State, City etc-whether they are friends, enemy or neutral.

### **Methodology :**

- Now decide a particular commodity & its popular name in that city or state.
- Findout the Star of the commodity & mark in the SBC.
- Mark the benefic/ malefic relation of planets with the Star of the commodity.
- Note the conjunction of planets & Vedha aspect of planets, which should always be actual-maximum within 1 degree.
- Record carefully the conjunction aspect & Vedha aspect of relevant planet on the concerned Star of the commodity.
- Note the prevailing price of that commodity on the first day of the Year, Month & Monday.
- Also prepare a horoscope of each date/day & study according to Astrological principles.
- If malefic relation is there, price increase is possible.

### **Percentage of price variations can be decided as under:**

- Note the ruling prices on a particular day.
- Divide the ruling price by 20.
- Each unit will indicate price variation.
- Compare this price with the prices prevailing on the first day of the Year, Month & Monday.
- Similarly record the relations of Planets, Star on any future date & determine the increase/decrease by synchronising the prices one year back, one month back or Monday with the current prices and accordingly determine the future trend.

- Find out from 9 planets, the total benefic/ malefic influence on the prices, deduct them & determine the actual influence.
- Since the planets have three types of speed, the price variation is also of three types-very high, high and average.
- Now you can determine the trend, either very high, high or average increase from benefic or malefic influence.
- Similarly prepare grading of the previous closing.
- If there is benefic Vedha by benefic planets-Mandi (depression) is possible.

#### **Another Method :**

- Decide the Starting time & closing time of prices. It may be a year or a month or a day. It means two periods-previous closing and future prices.
- Decide the actual longitude of planets.
- Decide the Vedha aspect of planets according to their speed. Record speed & direction of planets.
- Decide the actual Vedha of Star, pada of Star, Navamsa Vedha and other panchakas of country, time & commodity.
- Decide the strength of planets-in own house, in friends house, in enemy's house, in neutral house, also note if planet is rising, combust, retrograde or exalted.

#### **Carefully record:**

- Panchakas of the city, time & commodity.
- Pada Vedha by 9 planets.
- Pada aspect by 9 planets.
- Strength of Benefic/Malefic Vedha aspect of pada by 9 planets.

- Find out the difference at both the times.
- The difference will indicate the rise & fall of prices.
- In case any country, state or city has many names, the latest name assigned to that country, state, or city should be considered.

#### Another method :

- Note the prevailing price of a commodity on 2nd Tithi, after Amabasya.
- Note the relation of Star of the commodity & the planets of the commodity on the 2nd Tithi, (After Amabashya).
- Examine the relation of Moon on Panchakas of the commodity.
- Price will come down when the Moon is bright & has benefic relation with the Panchakas.
- Decide the commodities from the Star on which the Moon is transiting on a particular day.
- Price may also fall when Moon is malefic on 2nd Tithi after Amabasya. The commodity can be decided from the Moon Star on that date.

### **Special norms for Teji & Mandi:**

- Sun:** The marked trend reverses if Sun is with a combust planet.
- Moon:** It is an indicator of daily fluctuations.
- Mars:** When with another fast moving planet, the market picks up. If Saturn, Neptune, Pluto are with Mars, it causes Teji.
- Mer:** Lot of fluctuation if Mercury remains in a sign for more than 25 days. It causes sudden fluctuations in all important commodities for short period.
- Mer:** It causes Mandi, if ahead of Sun.
- Mer:** If causes lot of fluctuations if joined by Sun.

Mer : Exalted with Sun, causes Teji.

Mer : Debilitated with Sun, causes Mandi.

Mer : Retrograde, same trend for 7 days.

Jup : Causes Mandi, when Star or sign is moveable.

Jup : Causes Teji if joined by a malefic planet.

Jup : Causes sudden Teji if joined by Uranus.

Venus : Causes both Mandi & Teji.

Venus + Mercury : Causes Mandi.

Venus + Pluto : Causes Teji.

Saturn : Causes Teji.

Saturn + Rahu or Neptune : Teji due to shortage.

Harshal : Mandi

Harshal + Benefic planet : Mandi

Harshal + Malefic planet : Teji

Neptune : Teji

Neptune + Malefic Planet : Teji

Neptune + Benefic Planet : Mandi

#### Timing of events :

- First Vedha of Star, Sign, Lunar Tithi, Consonet, Vowel by a planet should take place in any one house.
- Thereafter when Moon also causes Vedha of the same panchakas, the Benefic or malefic event takes place.
- In case malefic Vadha of Star etc, the price of the commodity, signified by the concerned Star may rise.
- In case of Benefic Vedha, the price may fall.

Example : How to determine gold prices in Delhi on 25.7.1997 at 15 hours.

# Forecasting Methodology: Impact of Vedha on Hindu Casts :

### Methodology :

Whenever there is Vedha by Malefic Planets on prescribed Stars, defferent Hindu casts suffer as under:

### Sufferings to Brahmins :

Saturn having Vedha aspect on Krittika, Purva-Phalguni, Purva Sadha and Purva-Bhadrapada Stars.

### Sufferings to Vaisyas:

Saturn having Vedha aspect on Revati, Anuradha, Magha and Rohini Stars.

### Sufferings to Sudras :

Saturn having Vedha aspect on Punarvasu, Asvini, Hasta and Abhijit stars.

### Sufferings to Chhatriyas:

Saturn having Vedha aspect on Pusya, Uttara-Phalguni, Uttara-sadha and Uttara-Bhadrapada Stars.

### Sufferings to other casts in the world.

Saturn having Vedha aspect on remaining 12 Stars-Bharni, Mrga, Aslesha, Chitra, Svati, Visakha, Jyestha, Mula, Sravana, Dhanistha and Satabhisaj.

In case there is benefic Vedha by benefic Planets-Jupiter, Venus, Mercury & Moon, benefic results will take place.

# LATTA CHAKRA

Some malefic sensitive points are determined with the help Latta Chakra. Latta means casting a malefic influence on a particular Star, at a particular distance by a particular planet. First prepare a Latta chakra and understand its application.

## Latta Chakra

Planets	Sun	Moon	Mars	Mercury	Jupiter	Venus	Sat	Rahu Ketu
Latta Star	12	22	3	7	6	5	8	9
Direction	Front	Behind	Front	Behind	Front	Behind	Front	Behind
Results	Loss of wealth	Serious danger	Death	Loss danger	danger to relative	Setbacks	Death & destruction	Death

## Notes:

- Latta means a kick by a Planet, a Star which is declared as most malefic sensitive point.
- Counting should be done from the Star occupied by each planet either forward or backward as indicated in the above chart.
- Rahu being always retrograde, backward of Rahu means forward of Rahu's face.
- Front indicates clockwise direction, behind means anticlockwise direction.
- Latta Star indicates only the malefic Star of the day whether the Latta is by a benefic planet or a malefic planet.
- In Horary find out the Star of the day & then find out the Stars occupied by other planets. If day's Star is influenced by any Latta Star, the results will be according to that planet's Latta.
- In Mahurata, suppose you are planning to enter in a new house on a day which is occupied by Revati. This Star is not Latta Star from, Sun, Mars, Jup, Sat, as they do not occupy 12th, 3rd, 6th, 8th Star in forward position. Similarly Moon, Mer, Ven, Rahu/Ketu do not occupy

cupy 22nd, 7th, 5th, 9th, Star in bakcward position. This means the day is benefic and Latta does not exist on that day.

- In war, Latta indicates defeat or death.
- In travelling, the native never returns.
- In Marriage, the widowhood is possible.
- In Sun's Latta with Mars indicates loss of position, loss of property, loss of wealth & serious disease.
- In Moon's Latta with Mars, serious danger.
- In Sun's & Mars Latta on birth Star, loss of wealth, sickness, wound, serious danger.
- In Sun's, Moon's & Mars Latta on birth Star, serious danger.
- In Sun's, Satrun's Latta on birth Star, sickness danger, difficulties.
- In Sun, Satun & Moon's Latta on birth Star, very serious sickness is indicated.
- In Saturn's, Rahu's or Ketu's Latta on birth Star very serious sickness is indicated.
- In Jupiter's Latta on birth Star, sickness.
- In Venus's Latta on birth Star, loss of wife.
- In Sun's Latta on birth Star, foreign travel, skin disease.
- In Sun's Latta on birth Star with Mars, loss of wealth etc.
- In Sun's Latta on birth Star with Mercury, separation from family.
- In Sun's Latta on birth Star with Jupiter, danger from government.
- In Sun's Latta on birth Star with Venus, seperation from wife.
- In Sun's Latta on birth Star with Saturn, loss of gold, animals & crops.
- In Sun's Latta on birth Star with Rahu, danger, de-

Prepare Suryakalana Chakra as above and indicate all the 28 Stars (including Abhijit) as above. Thereafter note & mark your birth Star or Star as per your popular name or the star of the moment.

The results will be as under:

Star	Results
28	worries, tension
1	Murder
2	Obstruction
6 & 24	Sickness
7 & 23	Danger
11 to 19	Death
Remaining	Victory, gain & all round success

If Star have Vedha by:

- Sun — Worries & mental tension.
- Mars — Loss and reduction in wealth.
- Sat — Sickness, pain, serious disease.
- Rahu — Death due to serious sickness or accident.
- Ketu — Death due to serious sickness or accident.
- Jup — Gain & financial improvement.
- Ven — Gain of precious stones.
- Moon — Marriage and relation with a women.
- Mer — Happiness and all types of happy events.

**Vedha:** When a planet is transiting at the other end of your birth Star e.g. Your birth Star is Revati and a planet transit 17, 18, 19 Stars, than Vedha becomes operative & above mentioned events may take place.

P.S. This Chakra is explained in Swarshastra and is con-

sidered very useful for prediction about recovery from sickness, success in litigation, travelling & war.

#### 4: CHANDRAKALANAL CHAKRA

Write day's Star at S. No. 1 in the above Chakra. Thereafter write the remaining Stars including Abhjit Star. Note down the position & serial number of your birth Star in the above chakra. Results will be as under :

Birth Star falls at S.No. 1, 2, 7, 8, 9, 14, 15, 16, 21, 22, 23 and 28: Indicates death if sick.

Birth Star falls at S. No. 4, 5, 11, 12, 18, 19, 25, 26: Indicates good longevity, financial gain & improvement in family.

## 5: Sapt Salaka Chakra

	Krittika	Rohini	Mirga	Arda	Punarvasu	Pusya	Aslesha	
Bharani								Magha
Asvini								P. Phalguni
Revati								U. Phalguni
U. Bhadrapada								Hasta
P. Bhadrapada								Chitra
Satbhisaj								Svati
Dhanistha								Visakha
	Sravana	Abhijit	U. Sadha	P. Sadha	Mula	Jyestha	Anuradha	

## Notes :

- This chakra is also like SBC.
- This includes Abhijit Star also.
- It causes Vedha of opposite Star.
- If Malefic planet move on a Star & it causes Vedha of opposite Star, such a Star should be avoided for marriage & all other auspicious events.
- If a planet is on first charan (pada) of a Star, there will

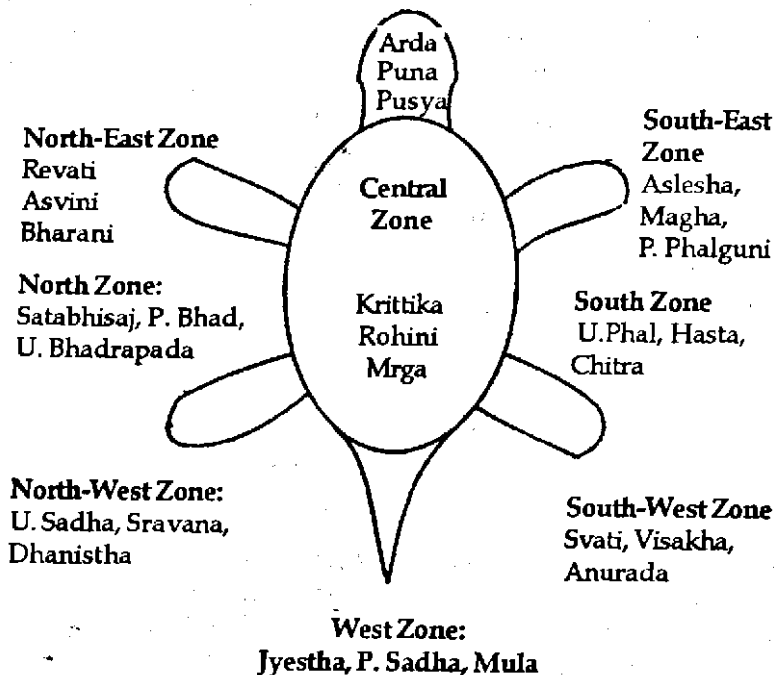

be Vedha of 4th charan (pada) of the opposite Star. Similarly planets on 2nd, 3rd or 4th charan will cause Vedha of 3rd, 2nd & 1st charan respectively.

## 6. KURM CHAKRA

### Introduction:

It is the most useful chakra and helps in determining the directions and places of malefic and benefic events specially in India. This chakra is a supporting chakra for making correct predictions according to SBC. The literary meaning of kurm is tortoise. The main purpose of this chakra is to determine different directions belonging to different Stars.

### East Zone :

The Krum Chakra is divided into nine zones and each zone is signified by three Stars. eg. central zone is signified by Kritika, Rohini, Mrga As far as India's central zone is concerned, it denotes UP (South/West) Madhya Pradesh (Pt), Rajasthan (Desert Area) Haryana & Gadwal.

Complete details of India's zones are given in chapter 17. Whenever Stars of that zone are afflicted by strong malefic planet, that zone & dwellers of that zone suffers. Affliction means transit of strong malefic planet on that Star signifying a particular zone, region, state or city. If more than one malefic planets are involved, large scale destruction of that zone is possible. Some times the whole direction is afflicted by malefic planets-Saturn Rahu, Mars, Ketu & Sun.

## 7. DHRUBANK CHAKRA

In addition to SBC, our sages have recommended the use of Dhrubank Chakra for determining the prices of commodities and shares at any future date. This Chakra will also enable to synchronize the price of any Commodity as per SBC. Our sages have assigned a numerical number for the following constituents of the Dhrubank Chakra:

- Dhrubank of Commodities or Shares.
- Dhrubank of City.
- Dhrubank of Star.
- Dhrubank of Lunar Tithi.
- Dhrubank of Day.
- Dhrubank of Months (Lunar)
- Dhrubank of Sun Sign (Rasi)
- Dhrubank of Astrological Yogas.

Stages:

- Decide the Commodities.
- Decide the Day & Month for finding the Teji or Mandi of commodities.

- Find out the Lunar Tithi, Day, Star, Sign and Yoga on that particular day.
- Note the Dhrubank of all the 8 Constituents.
- Add all the Dhrubanks (Numerical Numbers) of all the Constituents.
- Divide the total Dhrubanks by 9 (nine).
- Note down the remainder.
- Presume the remainder as an indicator.
- Find out from the Chakra, the position of the remainder figure from the concerned day. The position of the figure in the Chakra will indicate, whether the price will rise, decline or will have little or no change.

#### Dhrubank Chakra

Sun (1) Sunday Rise	Moon (2) Monday Fall	Mars (3) Tuesday Rise
Rahu (4) Sharp Rise	Jup (5) Thursday Fall	Saturn (6) Saturday Rise
Mercury (7) Wednesday No Change	Ketu (8)  Rise	Venus (9) Friday Fall

**Note:** Count the number of remainder from the Concerned day on which the price is to be ascertained. For example if the day is Friday and the remainder is four, the first number will be Venus being lord of Friday, the second will be Sun, third will be Moon and fourth will be Mars, indicating rise in prices.

**Note:**

- According to some sages, the counting need not be done from the concerned day but the remainder figure should be checked directly in the chart, which will indicate the price position. For example if the remainder is four, the Chakra will indicate 4th number is assigned to Rahu, indicating sharp rise of price of the concerned community.

**Example:**

Presume, we have to find out the price index of shares on Asadha Lunar month in Delhi Stock exchange, which falls on Dvitiya on Thursday etc the Dhruvank will be as under:

- Drubank of Shares	: 86
- Drubank of Delhi	: 136
- Drubank of Asadha	: 67
- Drubank of Dvitiya (2)	: 20
- Drubank of Pusya Star	: 64
- Drubank of Yoga (Harsana)	: 14
- Drubank of Thursday	: 65
- Drubank of Sun sign (Gemini)	: 66
- Total	: 518
- Formula	: $518 \div 9 = \text{balance}$ 5=belongs to Jupiter, which signifies fall in prices of shares.

**8. DHUAJADI CHAKRA**

In chapter 14 of this book, I have explained how to answer questions with the help of SBC. In addition to SBC methodology, I explain below an ancient methodology

developed by our sages. According to this methodology each question can be answered correctly. However I suggest the SBC & this methodology should be synchronised to find out a 100% correct answer. First prepare a chakra as under.

#### 4. Astrological Norms for success in Secondary Market.

Secondary Market involves sales and purchase of shares in the stock exchange through a Broker. It is natural that you will like to sell the shares when the market is Bullish and you will like to purchase the shares when the market is Bearish. Hence I will record here all possible combinations (Yogas) causing Bullish (Teji) in share market and also causing Bearish (Mandi) in share market.

##### Norms for Bullish Market (Teji) :

- Mercury is behind Saturn, Jupiter, Mars or Venus in the same Star. Teji will continue till the Mercury is behind these planets. As soon as Mercury crosses the longitude of the planet, ahead of it, Teji factor will gradually slow down. If the Moon is ahead of Mercury Teji factor will not work.
- Mercury is behind Pluto, Neptune or Uranus, Rahu or Ketu preferably in the same star and is aspected by Saturn and Mars by 7th aspect. Saturn and Mars should not be retrograde, combust or debilitated.
- Mercury is opposite Pluto, Neptune or Uranus. Maximum Teji will be possible when Mercury is  $180^\circ$  from any of these planets.
- Mercury is combust by Sun. Teji factor will continue till the Mercury is combust.
- Mercury is Retrograde and is ahead of Sun in the same sign. Teji factor will continue till the Mercury is Retrograde.
- Mercury & Saturn, both are retrograde in the same sign.
- Mercury in Pisces & Jupiter in Gemini or Virgo.
- Mercury in Sagittarius & Jupiter in Gemini or Virgo.
- Mercury in Aquarius & is behind Mars in the same Star.

- Jupiter is going to be Retrograde or Direct. Teji will take place on that date.
- Jupiter and Saturn, both Retrograde or in Aries, Leo, Libra, Scorpio or Capricorn sign. No other planet must influence this combination.
- Jupiter is Retrograde in 5th house having malefic aspect or conjunction.
- Jupiter and Venus are opposite each other in the same longitude.
- Jupiter is combust by Sun. Teji will continue till the Jupiter is combust.
- Jupiter in Gemini or Virgo sign and Rahu in Sagittarius or Pisces sign respectively.
- Jupiter is behind, Pluto, Neptune, Uranus, Rahu, Ketu or Saturn in the same star. Teji will continue till the Jupiter is behind any of these planets.
- Jupiter is Retrograde in Pisces sign along with Saturn — Rise in iron shares.
- Jupiter is Retrograde in Aries, Leo, Scorpio or Capricorn sign along with direct Saturn.
- Jupiter and Mars in Cancer, Sagittarius, Pisces, Aries, Scorpio, Capricorn sign. Mars should be behind Jupiter.
- Venus is behind Mars in Capricorn sign.
- Venus is behind any slow moving planet in Sagittarius sign.
- Venus and Sun in Pisces sign but in different stars provided Venus is behind Sun.
- Venus in Cancer Sign in 5th or 11th house.
- Venus in Sagittarius sign in 5th or 11th house.
- Saturn is Retrograde in Libra sign

- Saturn is Retrograde in 5th house having a malefic aspect or conjunction.
- Saturn and Mars opposite each other in the same longitude or are having an exchange.
- Saturn and Mars transit in Aries, Cancer or Leo sign, but both planets are combust.
- Saturn, Mars and Sun in Capricorn Sign and Rahu in Aries sign.
- Saturn is transiting Aquarius sign with Sun or Mars or Rahu, provided Saturn is ahead of Sun/Mars/Rahu.
- Saturn is Retrograde in Aries or Leo sign with Mars.
- Saturn in Pisces Sign & Mars behind it in the same sign.
- Saturn in Aries, Leo, Scorpio or Capricorn sign along with Retrograde Jupiter or any of the planet out of Mars, Sun Venus or Rahu.
- Any fast moving planet is behind slow moving planet in the same star. Rising continue till the fast moving planet crosses the slow moving planet.
- Mars enters Pusya, Anuradha, U. Bhadrpada stars owned by Saturn and also occupied by Saturn. Mars should be behind Saturn.
- 9th lord conjuncts with 10th lord in ASC, 5th or 11th house.

- Any two planets exchange their signs and also aspect each other and one of them occupies a malefic sign.
- Any two friendly planets aspect each other by 5th or 9th aspect and are in the same degree but in different houses.

- When maximum number of planets transit Aries, Taurus, Leo, Scorpio, Sagittarius and Capricorn sign.

**Notes:**

- All the above combinations should be related to 5th house, 5th Lord, 11th house & 11th Lord wherever possible.
- Success is assured when Ascendant Lord occupies 1,4,7 or 10th house; Sat, Mars & Sun occupies 3, 6, 11th houses and Jupiter, Mer and Venus occupy 5 or 9th house.

#### **Norms causing bearish trend (Mandi):**

- When a slow moving planet is behind a fast moving planet in the same star of a sign.
- When a slow moving planet occupies its own sign or exaltation sign and fast moving planet occupies any other sign.

- Any of the 9 planets are ahead of Pluto, Neptune or Uranus.
- When two friendly and benefic planets have 5th or 9th aspect and both planets are in same degree eg. Sun in Ares 10° and Moon in Leo 10°.
- Bearish trend starts as soon as Moon enters Leo sign and continues till it achieves the longitude of Sun 10°. In this case the fast moving planet should always be ahead of slow moving planet.
- When two friendly planets have 3rd or 11th aspect and both planets are in the same degree. Rest as above.
- Jupiter Retrograde or Saturn Retrograde in 5th house or Neptune (Ret) in second house.
